## About YAMAKI JOZO

Since 1902, YAMAKI JOZO has produced soy sauce and miso following centuries-old methods without additives and preservatives. This is truly our way of production using over 70 huge cedar barrels.

Unlike many organic companies these days who use imported ingredients for low cost, we use only selected Japan-grown organic ingredients, which represents 0.005% of soy sauce market, and less than 4% for miso market in Japan, in order to maintain real traditional taste and visible/ personalized relationship with ingredient producers, and sustainable production symbiotic with nature.

### - Company Concepts -

1. Preserve the authentic Japanese food culture.
2. Create visible/ personalized relationship with ingredient producers, manufacturers, and consumers.
3. Natural food production in natural environment.

## Our Products

- Manufactured by Authentic Production Method using cedar barrels carried over 100 years.
- Traceable Ingredients by our commitment to use Japan-grown quality ingredients produced by Organic and environment-friendly sustainable farming methods.
- Clear and soft local mountain spring water used in our products.
- Non-GMO, No MSG, No Artificial Additives, No Colorings, and No Preservatives.

- Certified Organic in Japan, EU, and USDA.

- Certified FSSC22000 (ISO22000:2005, ISO/TS22002-1:2009) for Soy Sauce and Miso production facility.
